

# AmeriLux Transportation Acquires Dedicated Systems and Announces Strategic Partnership with Airoidi Brothers

AmeriLux Transportation & Logistics, a full-service logistics, transportation and warehouse provider, is proud to announce it has acquired Dedicated Systems, Inc.

Dedicated Systems is a family-owned company based in Green Bay, Wisconsin. It has served customers nationwide since 1991. Over the years, Dedicated Systems has carved out a reputation in the transportation industry for prompt, nationwide service and specialized hauling of unique and over-dimensional loads, building its name on safety, on-time delivery, and a focus on driver retention and customer communication.

The acquisition adds significant capacity to AmeriLux Transportation's fleet while expanding the company's geographic reach from regional and dedicated service into nationwide specialized, flatbed, and over-dimensional hauling.

According to AmeriLux Transportation & Logistics Vice President Marc Leisgang, the acquisition sets the stage for the company's next phase of growth. "This acquisition positions AmeriLux Transportation for future growth, and we will relocate our current transportation offices to the former Dedicated Systems corporate office," Marc said.

*"We are very excited to partner with Dedicated Systems and continue building on our reputation as a trusted service provider while adding value to the marketplace," Marc said.*

*"Here at Dedicated Systems, we are ecstatic for our team and customers with the acquisition by AmeriLux. Both companies are people- and relationship-oriented, which makes this a great combination. As we begin this new chapter, combining our 35 years of industry experience and talented people with AmeriLux's culture and vision, I see great things ahead," said MJ Hintz, Vice President of Dedicated Systems.*

*"Today's announcements reflect our commitment to building a best-in-class logistics platform that creates lasting value for our customers, partners, and team members. The acquisition of Dedicated Systems brings exceptional talent and specialized capabilities to our organization, and our partnership with Airoidi Brothers strengthens the full-service infrastructure we need to support continued growth. Together, we are well-positioned to*

serve customers at a higher level across the country," said Kurt Voss, CEO of the AmeriLux Family of Companies.

In addition to the acquisition, AmeriLux Transportation is pleased to announce a strategic partnership with Airoidi Brothers, Inc. Family-owned and operated since 1938 and based in Oak Creek, Wisconsin, Airoidi Brothers is the largest independent truck leasing company in Wisconsin, providing full-service leasing, commercial rentals, and fleet maintenance solutions across Wisconsin and the Upper Midwest. As part of the partnership, Airoidi Brothers will operate onsite, relocating its Green Bay maintenance operations to the former Dedicated Repair facility.

*"We are thrilled to expand our partnership with Airoidi Brothers. We believe our organizations are closely aligned culturally, sharing a strong commitment to serving and creating value for all stakeholders," Marc said.*

*"We're proud to deepen our relationship with AmeriLux through this partnership. By expanding our maintenance operations in Green Bay, we're able to provide even greater support, efficiency, and responsiveness to their fleet. This collaboration reflects our shared commitment to operational excellence and delivering dependable solutions to all our customers," said Jim Airoidi, Co-President of Airoidi Brothers Truck Leasing.*
